

The DuraLite[®] Difference

Spiral Cage Food Conveyor Belt

Increasing carrying capacity & uptime to meet demanding food processing requirements

Common Applications for Rexnord[®] KleanTop[®] DuraLite[®]: turn/spiral, straight running, cooling, freezing, proofing

40% Lighter

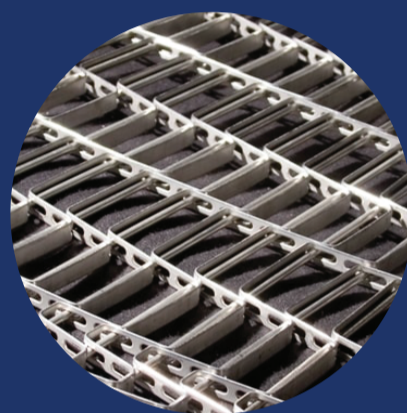

than standard belts resulting in:

- less wear & tear on components
- increased uptime
- greater energy efficiency

Carries up to 650 lbs. or 295 kg of product load

650 lbs.

2x the open area of plastic belt results in more efficient cooling & freezing

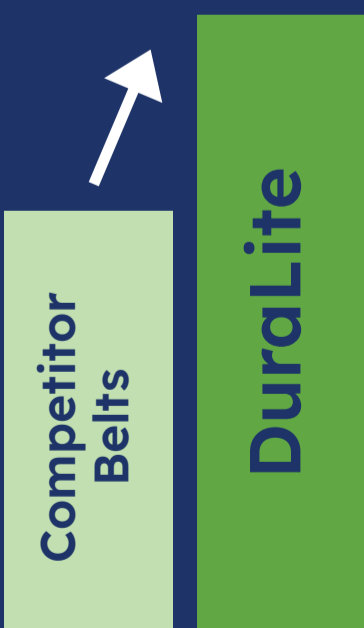

35% stronger than other standard 1"x1" (2.54 cm x 2.54 cm) belts, increasing the overall carrying capacity

28% overall increase in throughput

*As experienced by Ice Cream Manufacturer

2 years extended belt life

*As experienced by Ice Cream Manufacturer

Increased Sanitation

Greater open area of the belt's mesh pattern makes it more hygienic and easy to clean
